The Honorable John S. Herrington
Secretary of Energy
Washington, D.C. 20585

Dear Mr. Secretary:

Thank you for your kind invitation to visit the national laboratories that provide support in technological research and development for the Intelligence Community, as well as providing valuable expertise on energy issues. I look forward to touring your facilities and seeing your installations first hand. When I have plans to travel in these areas, I will be in touch with your Assistant Secretary for Defense Programs, Admiral Bob Foley, to make arrangements.

Your congratulatory remarks on my new position as Director of Central Intelligence, and the offer of continued cooperation from all of you at DOE were certainly appreciated.

Sincerely yours,

/s/ DIN

William H. Webster
Director of Central Intelligence

JUDGE:

RE: Invitation to Visit Laboratories
at Los Alamos, Livermore, and Sandia
Convenient Date

Secretary of Energy, John S. Herrington, has invited you to visit laboratories at Los Alamos, Livermore, and Sandia that provide support in the design and development of a range of material used by the Intelligence Community. Your visit could be scheduled at some convenient date when you are traveling in the West. According to Secretary Herrington, Bill Casey toured these facilities last year and found it worthwhile.

After checking with Evan Hineman's office, I believe that these would be good tours for you to take when it fits in with your schedule. DDS&T will provide support and help coordinate the trip. If you agree, I have attached a letter of acceptance to Secretary Herrington for your signature.

[Redacted Signature]

Bill Baker
